

GLADSTONE IS TO
RETIRE TOMORROW.GRAND OLD MAN'S RESIGNA-
TION IS READY.

It Will Be Tendered at a Meeting of the Privy Council to Be Held Tomorrow Noon at the Castle of the Queen—Who is to Be His Successor?

LONDON, March 2.—[Special]—Gladstone will resign tomorrow. Mr. and Mrs. Gladstone went to Windsor this afternoon on the command of the queen and will remain here guests until tomorrow. At noon the privy council will hold a meeting at the castle, and Gladstone will then tender his resignation of the premiership. This report was confirmed by his secretary, Mr. Littleton, who said that the resignation of the premier can not long be delayed. He added that at the audience which Mr. Gladstone had at Buckingham palace yesterday with the queen he referred to the increasing difficulties which he experienced owing to his failing eyesight, deafness and age, and told her majesty that he could not long continue to bear the responsibilities of the premiership.

Lord Rosebery may not be the successor of Mr. Gladstone, in spite of rumors to that effect. Much of the opposition to him comes from the suspicion that, on foreign affairs he represents jingoism instead of radicalism. This difficulty may be removed by his transfer from the foreign office and John Morley or the earl of Kimberley may succeed him there.

SEIGNIORAGE BILL PASSED.

The Final Vote is 167 For and 130 Against.

WASHINGTON, March 2.—Mr. Bland secured another quorum in the house yesterday, and had passed his motion to bring the seigniorage bill to a vote after two hours' more debate.

At the opening of the session Mr. Cummings asked unanimous consent for the consideration of the bill appropriating \$45,000 for reclaiming the wreck of the United States steamship Kearsarge, aground on Roncador reef.

Mr. Kilgore, ascertaining that this was the bill pushed by Mr. Geissenhauer Wednesday, made a few observations upon members who blocked legislation by refusing to vote and then wanted to legislate by unanimous consent. He demanded the regular order.

The regular order was the vote on the adoption of the special order to limit debate on the seigniorage bill to two hours, on which the quorum had

CONGRESSMAN BLAND.

failed to unite, and the clerk called the roll. Exactly a quorum voted and the special order was adopted—166 to 13. The long struggle was over and a vote upon Mr. Bland's bill was assured.

Immediately upon the announcement of the vote the speaker declared that in accordance with the provisions of the order just adopted the bill would be open for debate and amendment for two hours.

Mr. Bland was recognized and offered a substitute for the original bill.

The first section of the substitute is identical with the first section of the original bill, except that the coinage is to proceed as fast as "possible," instead of "practicable." The substitute for the second section reads:

After the coinage provided for in the first section [the seigniorage] the remainder of the silver bullion purchased in pursuance of the act of July 14, 1890, shall be coined into legal tender standard silver dollars as far as possible, and the coin shall be held for redemption of the treasury notes issued against such bullion. As fast as the bullion shall be coined for the redemption of said notes the notes shall not be reissued, but shall be cancelled in amounts equal to coin held or derived from coinage herein provided for, and silver certificates shall be issued on such coin in the manner now provided for by law; provided that this act shall not be construed to change existing law relating to the legal tender character or mode of redemption of existing treasury notes under the act of 1890.

A sufficient sum of money is appropriated to carry into effect the provisions of the act.

Mr. Outhwaite offered an amendment to strike out the second section of the substitute. Mr. Johnson of North Dakota offered an amendment to the original bill authorizing the secretary of the treasury to afford the silver dollars the same rights as to redemption and exchange now accorded to subsidiary silver coins.

Mr. Strauss of New York offered an

amendment to the amendment. Mr. Bland made the point of order that Mr. Strauss' amendment to the amendment was not germane. The speaker sustained the point of order and ruled the amendment out. Mr. Cummings asked if the chair ruled that any amendment looking to an issue of bonds would be ruled out. The chair replied that the ruling was not so broad as that, and Mr. Cummings gave notice that he would offer a second amendment later.

Mr. Cannon of Illinois then offered as an amendment in lieu of Mr. Strauss' amendment the so-called Windom proposition for bullion redemption, at the current market rate of silver, of bullion certificates, which was discussed in the fifty-first congress.

Mr. Cannon's amendment was ruled out on the ground that it was not germane. Mr. Abbott offered another amendment to the amendment relating to the coinage of the silver in the treasury.

Mr. Bland took the floor in support of his substitute. He explained the second section of the substitute. It made the coinage of the remainder of the bullion in the treasury begin after the coinage of the seigniorage, and a specific proviso was added to the effect that nothing in the act shall be deemed to change or alter any existing law as to the legal character or mode of redemption of the treasury notes.

Mr. Outhwaite of Ohio, arguing against the second section of the original bill and the substitute, said its purpose was to retire the existing treasury notes. There was not gold enough in the treasury to redeem one-third of the outstanding treasury notes, and this act would weaken the reserve and inevitably lead to an issue of bonds to replenish it.

Mr. Johnson of North Dakota, in support of an amendment offered by him, maintained that it was absolutely necessary if the declared policy of the government to maintain all classes of our currency at par were to be kept in force. Not to adopt his amendment would be to dishonor the national credit.

Mr. Simpson declared that to strike out the second section or to adopt Mr. Johnson's amendment (which would make silver dollars redeemable in gold) would be another great stride in the direction of plutocracy.

Mr. Abbott of Texas explained and advocated his amendment. C. W. Stone of Pennsylvania called attention to the fact that the substitute as drawn gave authority to issue silver certificates in advance of the coinage to the amount of \$55,000,000. He was afraid a panic would be caused in the country.

The debate was continued by Messrs. Johnson, Hartman, Swanson, Hunter, Newlands, Wheeler and Tracy. Mr. Dingley was recognized and began to speak when Mr. Bailey called attention to the fact that the time for debate had expired. Accordingly the voting began. Mr. Abbott's amendment to Mr. Johnson's amendment and the Johnson amendment itself were disagreed to, the former without division and the latter by a vote of 64 to 133. The vote was then taken on Mr. Outhwaite's amendment to strike out the second section of the Bland substitute, the yeas and nays being demanded upon division. The republican and democratic opponents of the bill voted in favor of it, as well as quite a number of democrats who were accounted friends of the measure. The amendment was lost 129 to 144.

The vote was then taken on the Bland substitute. No attempt to break a quorum was made on this vote and then the Bland substitute was adopted—111 to 96. Before the vote could be taken Mr. Tracey of New York moved to recommit the bill without instructions to the committee on coinage, weights and measures. The motion to recommit was defeated—132 to 167. The vote was then taken on the final passage of the bill. The bill was passed—167 to 130.

Of the 167 yeas 141 were democrats, 18 republicans and 8 populists. Of the 130 nays 80 were republicans and 50 democrats.

FAULKNER FOR CONCILIATION.

West Virginia Senator Argues Before Finance Committee.

WASHINGTON, March 2.—The democratic members of the senate committee on finance resumed their sittings as a body yesterday morning. A considerable part of the forenoon was spent in hearing Senator Faulkner, who, in accordance with the expressed desire of the caucus that the committee should hear all democratic senators who might wish to make recommendations to the committee, was invited to attend. It is understood that Mr. Faulkner advised a conciliatory and conservative course. It developed that the attitude of the populist senators with reference to the tariff bill was discussed in caucus. The democrats have enough votes to pass the bill if the solid democratic vote can be retained. But if there should be a break in the ranks it is said the populist votes have been counted upon to make good any defection.

M'KANE TAKEN TO SING SING.

Another Attempt to Secure a Stay Denied by Judge Barrett.

NEW YORK, March 2.—Fighting to the last to keep out of prison, "Boss" John Y. McKane was started on his way to Sing Sing at noon yesterday to serve a six-year sentence for election frauds. He reached Sing Sing in the afternoon, and was put into a striped suit after having his whiskers taken off.

ARE FIGHTING RUM
OUT IN BRODHEAD.BLIND PIG KEEPER KEPT ON
THE CONTINUAL.

When Charles Laube Was Held For Trial in One Charge Two More Were Made Against Him—John Young, Michael Boland and Hans Larsen on the Hooks.

BRODHEAD, March 3.—Brodhead is now engaged in fighting the rum demon. No sooner had Court Commissioner Abbott announced his decision that Charles Laube was guilty when two more complaints were made and served on Laube. They will be heard on next Monday in this city.

It is not quite understood what the defense will be when these cases will come up in circuit court. Laube is not the only one charged with selling liquor at Brodhead, but perhaps he will have more actions against him than any one man. John Young will figure as defendant in two cases. Michael Boland is defendant in the case on the same complaint, also Hans Larsen. The liquor business of Brodhead will receive a thorough airing at the spring term, and if liquor continues to be sold in Brodhead the schemes for securing it will have to be more complicated.

DEXTER BANK ROBBED.

Cashier of a Michigan Bank Overpowered and the Vault Rifled of \$3,200.

DEXTER, Mich., March 2.—O. C. Gregory, assistant cashier of Gregory & Sons' private bank, was found unconscious in the vault of the bank yesterday. He had been sandbagged and the vault robbed.

He told the following story: "I reached the bank at 7 o'clock as usual and began sweeping out and preparing things for business. I had emptied the ash pan in the back yard and was returning through the rear door when the front door opened and two masked men with revolvers appeared. They called to me to make no outcry or they would shoot, and when they reached me I was ordered to open the vault door. They threatened to shoot if I did not open the lock and I did it. Just as the bolts were sprung one of the men hit me over the head and I lost consciousness."

Gregory could not give any description of his assailants. He says he was taken completely by surprise and as his back, after the first moment of meeting, was turned to the burglars, he had no chance to note any peculiarities about the dress or person of his assailants. Gregory is a young man of model habits, and is ambitious and a hard worker. No suspicion attaches to him.

There was fully \$5,000 in currency in the vault and of this \$1,800 was dropped on the floor. There is not the slightest clew. No one was seen either entering or leaving the bank. Exit was made by way of the back door. Two men were arrested at Ann Arbor on suspicion, having been seen standing beside a freight train just before it moved out of here. They proved they were attending to horses on the train and were released. Careful inquiry fails to reveal trace of strangers having either entered or left the town for several days.

Mr. Gregory is not seriously hurt, being about town with a badly bruised and swollen head. The local officers are at work and will be reinforced by detectives from other cities.

The Dexter Savings bank is practically a new institution, having been recently organized with a capital of \$23,000. Thomas Burkett is president. Mr. Burkett was much excited when seen, and refused to talk more than to say that he had the utmost confidence in Mr. Gregory.

CORBETT ACQUITTED.

JACKSONVILLE, Fla., March 2.—At 3:51 yesterday afternoon the jury in the case against James J. Corbett, charged with violating the laws of Florida by engaging in a prize fight, returned a verdict acquitting the prisoner.

Four Persons Reported Drowned.

WABASH, Ind., March 2.—It is reported here that a schoolteacher and three of her pupils were drowned in the Tippecanoe river at Bloomington, northwest of this city, yesterday while attempting to cross the river on the ice. The story has not been verified.

Imprisoned Miners Rescued.

ASHLAND, Pa., March 2.—The five men who were imprisoned in the Boston Run mine by a fall of coal have been rescued. The damage to the workings will be repaired at once and operations will be resumed in a few days.

Northern Pacific Order.

MILWAUKEE, Wis., March 2.—To-day Judge Jenkins will listen to arguments on the motion of the labor organizations for the modification of his famous Northern Pacific strike order.

A Case Lander.

"If there's anything that worries me," said the Pullman porter, who was in a communicative mood, "it's these jokes in the papers about porters making big money."

"They are exaggerations, are they?"

"I should say they are. Now, take this trip, for instance; I've only made \$14.75. There was a lot of women on board, and they hardly ever tip a fellow."—Judge.

FOND DU LAC HURT
BY C. & N.W. CHANGESTRAINS TAKEN OFF WHILE
NONE ARE SUPPLIED.

No Fast Trains Will Reach That City On Sunday or at Night While the New Fast Flyer to Ashland Simply Scoots Past and Whistles Its Defiance.

FOND DU LAC, March 2.—The new train service on the C. & N. W. will hurt this city, for it is said that the morning passenger going north which returns at 10:30 p. m., will be taken off. There are few trains which afford better accommodations to Fond du Lac than that 10:30 evening train. The new trains which will be put on will not return to Chicago via Fond du Lac, but by way of Sheboygan, and thus no substitute for that night train from the north will be forthcoming. The probability is that the train which now reaches Fond du Lac at 10:30 p. m. from the north will continue to be operated as far as Oshkosh, but not to this city. If that is the case Fond du Lac will again tender its thanks, with a great big question mark to the Northwestern Company.

DAN'S DEFENSE ENDED.

Conclusion of Judge Wing's Address in the Coughlin Trial.

CHICAGO, March 2.—Judge Wing's voice was somewhat husky when he resumed his argument on behalf of Dan Coughlin yesterday. He proposed to conclude his speech during the day, and he occupied his closing hours in a resume of the evidence in the case, stating the theory of the state and the explanation of the defense with regard to every circumstance by which the prosecution expects to prove the guilt of the man on trial. Judge Wing devoted some time to the cause of death. He said there had been an inclination to change the facts, to suppress a thorough investigation, rather than to bring out everything that might tend to uncover the truth. He said he did not mean to charge Mr. Bottom with intentional misrepresentation, but there was too much assumption in the case.

At the end of Judge Wing's address court adjourned to 2 o'clock. When it resumed in the afternoon Mr. Bottom began the closing speech on behalf of the state. It is expected that he will occupy three days or more, and it is expected that the case will be given to the jury about Monday evening.

STARVING MOB DISPERSED.

They March on the City Hall to Make Forceful Demand for Work.

TORONTO, Ont., March 2.—More than a thousand hungry workmen assembled in St. Lawrence hall yesterday morning. They were driven by want nearly to desperation, and almost unanimously passed a resolution that the assemblage as a body should march down to the city hall and make forcible demand for work or bread. Several patrol wagons dashed down to the city hall loaded with policemen. The workmen were awed by the appearance of the police and concluded to disperse peaceably. They decided, however, to meet again to-day, when arrangements are to be made for a demonstration in Queen's park, after which Sir Oliver Mowat, the leader of the Ontario government, will be appealed to for assistance.

Students Refuse to Answer.

ITHACA, N. Y., March 2.—The coroner's inquest in the student banquet affair was resumed yesterday. F. C. Taylor, C. L. Gings' room mate, upon taking the stand, by advice of counsel refused to answer questions. The jury immediately went into executive session and Taylor's attorney was excluded from the room. Four students are charged with the crime.

In the Senate.

WASHINGTON, March 2.—Mr. Cullom introduced in the senate yesterday his bill creating a tariff commission and directing the construction of customs duties based upon the difference in the cost of American and foreign labor. It was laid over for consideration in the future.

Mr. Frye of Maine then took up the thread of his Hawaiian speech at the point where it was interrupted by the adjournment Wednesday. In the course of his speech he severely criticized Mr. Blount's course at Honolulu. Mr. Gray (dem., Del.) briefly defended Mr. Blount from the allegations made by Mr. Frye.

The senate took up the unfinished business, which was the bill for the erection of a new government printing office. Mr. Dolph of Oregon addressed the senate. He and Mr. Allen (pop., Neb.) became involved in a controversy over the tariff. When the senate adjourned it was until Monday.

Identification by Measurement.

By the Bertillon system of identification the length and width of the head are taken, also the length and width of the left middle and little fingers, the length of the left foot, of the left forearm, of the right ear, the height of the figure, the measurement of the outstretched arms and of the trunk when seated. It is said that no instance of all these measurements coinciding in two persons has ever been known.

TROOPS ARE NCW IN CONTROL.
West Virginia Miners Held In Check By The Soldiers.

CHARLESTON, W. Va., March 2.—The situation at Eagle, twenty-eight miles above this city, is apprehensive. Everything is reported quiet, yet there may be a renewal of hostilities at any time. Four companies of state militia are on the ground. The sheriff of Fayette county was promptly on hand yesterday morning with a very large posse before the state troops arrived. The strikers rallied 1,500 from Montgomery and Handley during the day and were determined to rout Wyant's men from their mountain intrenchments. They apparently dispersed on the display of troops and Sheriff Fleming said he could control the situation with less troops. Gov. McCorkle, thinking the trouble over, contemplated removing the troops, and this word soon reached the men, who have their allies at the state capital. It was at once seen that the demonstrations were simply suspended in anticipation of the temporary presence of the troops. While there are no new developments still there are plenty of rumors.

Gov. McCorkle received a telegram at 3:30 p. m. from the sheriff and military officers in command of the troops at Eagle stating that there was likely to be a conflict between the civil and military authorities and asking that martial law be declared. At 4 o'clock another dispatch was received from Gen. Wood that over 1,000 strikers had congregated at Montgomery and were determined to do serious damage. At the same time a dispatch was received from J. M. Gill, division superintendent of the Chesapeake & Ohio railway, asking the governor to rescind the order to remove two of the military companies, as serious trouble was threatened. Accordingly the governor countermanded his order, and the three companies will remain till this afternoon, if no longer. The governor also sent Col. R. S. Carr of his staff to the scene with instructions to declare martial law if necessary.

INDIANA MINERS REFUSE THE CUT.

They Vote to Adhere to Contract in State Convention.

TERRE HAUTE, Ind., March 2.—The miners in state convention voted to adhere to the yearly contract scale of 70 cents a ton. This was their answer to the operators' statement that nothing less than a 20-cent reduction would be accepted. Yet the convention adjourned to meet to-day and the leaders and the operators expect a renewal of negotiations.

BRAZIL, Ind., March 2.—The bitter feeling manifested by the block coal miners at the bituminous miners because the former felt that the latter were attempting to force a reduction on them subsided yesterday by the block coal operators, whom it was alleged co-operated with the bituminous miners, making a public statement that no reduction was in contemplation and that they would pay the old scale until May 1 irrespective of the action of the bituminous miners in convention at Terre Haute, but they further stated that after the expiration of the contract May 1 a sharp reduction would follow, which means a cut of 20 cents per ton, making the price on mining lower than ever in the history of the Indiana coal fields. A strike now appears certain.

Old Wage Schedule Stands.

OMAHA, Neb., March 2.—Yesterday was the day set for placing in effect the new wage schedule of the Union Pacific since revoked by the receivers. The men all expressed themselves as glad indeed that Judge Caldwell had ordered a rehearing so that the schedule could not be put into effect. It was said that had the new schedule been enforced yesterday there would have been a strike extending over the entire system.

Lockout Against Ohio Miners.

MASSILLON, Ohio, March 2.—The Massillon district coal operators met yesterday and declined to submit the matter of abolishing the differential of 15 cents a ton against this district to a referee. This means that the lockout which began Feb. 19 will continue indefinitely. The miners claim to be in shape to stand a prolonged siege, but as they have not averaged two days work per week for six months it is difficult to see how they can exist without enduring many privations.

Boston Garment Workers' Strike.

BOSTON, Mass., March 2.—All efforts to settle the trouble between the Garment Workers' union of this city and the Boston Clothing Manufacturers' association have been given up and a long and bitter fight will surely follow. About 1,200 garment workers are affected.

Call for State Bank Statements.

SPRINGFIELD, Ill., March 2.—The auditor of public accounts has sent out an official call to all state banks requesting that sworn statements of their condition be sent to his office as soon as possible. The last call issued by the auditor was Nov. 8, 1892. The call now made includes all business done from that date up to the close of business Feb. 28.

Disaster on the Ship Occidental.

SAN FRANCISCO, Cal., March 2.—The ship Occidental is reported wrecked near Comax, B. C. The Occidental left here Jan. 26 for Comax to load coal for Honolulu.

Many Anarchists Arrested.

PARIS, March 2.—The police show no signs of relaxing their activity against the anarchists, twenty six of whom were arrested in this city this morning.

Whitcaps Threaten Negroes.

BIRMINGHAM, Ala., March 2.—Whitcaps at Brantley, Pike county, posted on the negro church during services Monday night notices commanding all blacks to leave the county or share the fate of Mack Segars, a negro recently lynched. Excitement among the negroes is intense, and the better white element feels apprehensive of reprisal by the blacks.

For Hanging Morton in Effigy.

NEBRASKA CITY, Neb., March 2.—Saachria T. White was arraigned before Judge Chapman for sentence yesterday for hanging J. Sterling Morton in effigy. The court imposed a fine of \$200 and costs. A motion for a new trial was overruled. White's attorneys then prepared papers for appeal to the Supreme court.

Attempt to Blow Up a Dam.

ANNA, Ill., March 2.—Last night three men were surprised in the act of trying to blow up the dam across the famous Goodman ditch in the Mississippi bottoms. Blay, one of the captured men, states that they were to receive \$400 for their work from wealthy landowners.

Four Jail Breakers Captured.

FORT DODGE, Iowa, March 2.—Four of the six prisoners who broke jail here have been secured. Phipps and Winters, the two at large, are charged with participating in the riot in which the marshal at Dayton was killed New Year's night.

Hart Believed to Have Confessed.

ROCKFORD, Ill., March 2.—It is believed that John Hart, who is to be hanged March 16 for the murder of his sisters Mary and Nellie, has made a confession to Father Solon of St. Mary's church.

His Life for Twenty-five Cents.

SIOUX CITY, Iowa, March 2.—Ed Mitchell, a Jackson, Neb., farmer, tried to save 25 cents by crossing the Missouri on the ice instead of on the toll bridge. He and his team broke through and were swept under the ice.

Tries to Hang Himself Again.

ST. LOUIS, Mo., March 2.—Wife Murderer Arthur Ducrest made another attempt at suicide last night, hanging himself with his suspenders, but was cut down before any damage was done.

Dedicate a College.

WINFIELD, Kan., March 2.—Yesterday was a gala day in this city, everybody assisting in the dedicatory exercises of the St. John's Lutheran college. The city was crowded with visitors from all over Kansas, also from Chicago and St. Louis. Addresses were made by prominent divines from all the larger cities. This is the formal dedication of the greatest college in the southwest.

Mr. Wilson Improving.

WASHINGTON, March 2.—The following cablegram was received at the state department yesterday:

"CITY OF MEXICO, MARCH 2. SECRETARY OF STATE:—Just heard from Wilson. Temperature normal; general condition good. Convalescence sure if not imprudent, but slow, needing good nourishment and rest. Out of all danger."

"CRITTENDEN, Consul General."

Three Locomotives Ditched.

PEORIA, Ill., March 2.—Meager details have been received here of a disastrous wreck on the Iowa Central railway. Owing to a misunderstanding of orders a west-bound double-header extra freight collided with an east-bound regular freight. All three engines went into the ditch and were badly demolished, as were a number of cars loaded with merchandise. No one was seriously injured.

Two Killed by an Explosion.

WARSAW, Ind., March 2.—By an explosion of the engine at Freely's planing and saw-mills the premises were fired. Two men were killed and injured, as follows: Frank Rippey, engineer, killed; Charles Dawson, superintendent, scalded to death; William Webb, fireman, fatally injured; John Freely, owner, fatally injured.

Work of the Epworth League Cabinet.

SPRINGFIELD, Ohio, March 2.—The Epworth League Cabinet has arranged a reading course for 1894.

CALEDONIANS MEET TO NAME OFFICERS.

DR. JAMES MILLS IS AGAIN
MADE PRESIDENT.

Alexander Galbraith Resigns as Secretary and C. P. McLean Takes His Place—G. C. McLean is Vice President and John Harvey is Treasurer—The Society's Growth.

Despite the fact that Dr. James Mills tendered his resignation as president of the Rock County Caledonian society he is still "in the chair" for the members rose up to a man and refused to accept it. The officers elected were:

President, Dr. James Mills; Vice President, G. C. McLean; Secretary, C. P. McLean; Treasurer, John Harvey. The annual meeting of the society was held yesterday afternoon. Dr. Mills as president outlined the work of the society in these words:

"Eight years ago the Caledonian Society was organized with thirty charter members for the purpose of celebrating the anniversary of Scotland's favorite bard, Robert Burns; to encourage a more thorough acquaintance with his works; to gain a better knowledge of Scottish authors and literature; to look after and aid any worthy brother, and to promote a friendly feeling among our fellow citizens. We can ask the question, 'Have we failed or succeeded in our undertaking?' The answer to this question is, that at present we have a membership of one hundred and thirty-four, a well filled treasury, a comfortable suit of rooms, pictures, library, organ, etc., and the society is in a flourishing and prosperous condition. There is not an association in this county where a more friendly feeling prevails.

Dohe a Good Work.

"The name and standing of the Society is just what you have made it and the secret of your success is that you have all worked together to accomplish one purpose. Our committee meetings have always been enjoyed and we have spent many pleasant hours together.

"Our secretary, Alex Galbraith has served the society faithfully since its organization and his valuable assistance is fully appreciated.

"I think more books of recent publication should be added to our library and that we should meet as often as possible and encourage the friendly feeling among the members that has existed for years.

"I thank you sincerely for the honor you have conferred upon me from year to year and I thank each one individually for your good will and hearty co-operation. You have not only endeavored to muse and entertain at our social gatherings but have extended a helping hand to the sick and needy and provided a last resting place for an unfortunate stranger. The latch string of our door has always been out to the worthy and needy of all nationalities."

Secretary Galbraith Resigned.

The resignation of Alexander Galbraith as secretary was tendered the society and was accepted with great reluctance, Mr. Galbraith having performed his office in a way that left no room for criticism but plenty for praise during his eight years service. Charles P. McLean was elected secretary in place of Mr. Galbraith, G. C. McLean was made vice president and John Harvey was named as treasurer. Three new members were elected, M. G. Jeffris, Robert Brown and D. Glen. Fred M. Marzluff and William Garbutt were elected honorary members. Directors were elected as follows, Dr. James Mills, James Scott, George Skinner, C. C. McLean, P. J. Mout, W. R. Proudfoot and Alex. Galbraith.

Fifty dollars was appropriated for the purchase of books for the association's library and a committee consisting of John Harvey, John Galletly and Thomas Drummond was appointed to purchase the same. John Harvey was elected librarian. A committee on socials was appointed consisting of W. R. Proudfoot, C. C. McLean, James Scott, P. J. Mout and Alex. Galbraith.

The Secretary's Report.

Secretary Galbraith's report outlined the work of the society saying that the charter membership was thirty members and had since increased to one hundred and two regular members and thirty-two honorary members. Both the games and the Burns celebration were unequal successes and thanks were extended to M. G. Jeffris for his excellent speech and to Governor Peck for the interest he took.

There have been no deaths in the society since its organization, nor has there been any special cases of sickness or poverty reported during the past year. He also suggested that something should be done with the view of getting an increased interest in the library, one of objects of the organization being to gain a better knowledge of the Scottish authors and literature. A committee might be appointed to deal with that question and also that of improving the characters of the socials.

Drawing Jurors.

Notice is hereby given that on Thursday, March 15, 1894, at 2 o'clock p. m., at the office of the clerk of the circuit court for Rock county, Wisconsin, at the court house, in the city of Janesville, said county, the petit jurors to serve at the April term 1894, of the circuit court for said county will be drawn according to law.

E. D. McGowan, Clerk.

EIGHT INTERMENTS THIS MONTH

All of them This Time Were Residents of Janesville.

POISON VICTIMS IN INDIA.

Wholesale Murder Carried on in Spite of All Government Effort.

"Although the English government keeps strict surveillance over its subjects in India, it does not seem to be able to stop the wholesale poisonings going on among the natives there every year," said William Eckstein, the London iron manufacturer. "It seems innate to the native Hindu to poison if he desires to get rid of some one who is in his way. The poisons which the natives use produce about the same symptoms as the poison of a snake. The victim dies suddenly and is cremated within an hour or two after death, so there is no opportunity of investigating the cause. The poisoner, to further deceive, usually makes a cut in the leg or arm with a knife, such as the fangs of a snake would make, so that it is difficult to distinguish a victim of the snake from a victim of the poisoner. There are thousands of deaths put upon the government registers every year that are attributed to the bites of snakes. I'll venture to say that but a small percentage of these are from that cause. In traveling through India it is rarely that a snake will attack you, for as soon as it hears anyone approaching it usually glides away. Europeans are seldom bitten, on account of the boots and leggings they wear, but the natives, who go barefoot, occasionally step upon a reptile, which strikes them, and then death results in a few hours. The English government offers sixpence a head for every poisonous snake killed in India. I know of some places where natives went into the business of breeding cobras for the purpose of getting his bounty and made a good business out of it. In Lower Bengal, where snakes are held to be sacred, you find them in profusion, for it is considered sacrilege to kill them. I remember a house in which I resided in that district in which it was usual to kill one or two cobras a day. Snakes had got between the walls of sun-dried brick and once in a while would steal out of a hole like a rat.

Over 14,000 Heirs to One Estate.

One of the most peculiar wills ever filed for probate in Belgium is that of Mme. Meens whose first husband bore the name of Verhaegen. Mme. Meens died in Antwerp where she lived in a handsome palace in the Avenue des Arts a few months ago. She left her estate to all the relatives up to the twelfth degree of kinship, on both the father's and mother's sides of her first husband. The only condition was that they should make good their claims within six months. The news of the contents of the will created great interest in Belgium where the name Verhaegen is a common one. As the widow was reputed to be worth hundreds of millions the ambitious relatives hastened to file their claims. As a result, the court is obliged to pass upon the alleged rights of 14,551 heirs. The poor people are doomed to disappointment, as the estate turned out to be worth only about \$3,000,000. So many lawyers have been engaged that their fees alone will swallow up this amount.

Extent of the Redwood Belt.

The redwood forests of the Pacific coast constitute a strip, or as it is more frequently called, a belt, stretching along the western base of the coast range of mountains for 400 miles. This forest belt is so continuous in its exclusive possession of its own realm that in Humboldt county, where the heaviest timber is to be found, it is said that one might travel nearly 100 miles in a straight line without emerging from the shadows of the redwood. At some points these forests extend quite to the ocean beach, but in most places a strip of open or brushland from one to ten miles wide intervenes between the redwoods and the coast. To landward the redwoods do not extend beyond the prevailing fogs and abundant moisture from the fogs and abundant moisture from the Pacific.—Harper's Weekly.

RED HOT "ROASTS" FOR DOE AND CLARK

SENTINEL MAKES BITING REMARKS ABOUT THEM.

The General Compared to Von Moltke and the Colonel to Charles A. Dana—Comment on Col. Clark's Faulty Memory and Mesmeristic Power Over People.

The Milwaukee Sentinel is bristling with biting editorials these days and Janesville men figure in them quite extensively. In one published under the head of "The Taste of Posterity" they say that we have no means of knowing what posterity's taste may be. Perhaps it will be shockingly bad. Our descendants may think Clarence Clark a greater editor than Charles A. Dana, General Joe Doe a greater warrior than von Moltke.

They also hazard the statement that Colonel Clark lost his memory as soon as he learned that Mr. McFall had lost the memorandum, (which Clark had denied writing.) Now that the memorandum has turned up Colonel Clark's memory should improve."

Under the head "A Suggestion" the Sentinel says:

"The lawyers who are defending the governor and other state officers against the charges on which they were brought before the Circuit court of Dane county have a difficult task. Each of the accused has counsel different from the others, and the temptation of these lawyers to try and shoulder the blame from his own client upon the other implicated ones is too great to be wholly resisted.

Each Minded the Others.

"It is urged that Governor Peck was misled by Attorney General O'Connor and Adjutant-General Doe. Doe can plead that he was misled by O'Connor who gave an opinion in writing. O'Connor wants to be forgiven on account of alleged previous good character. In behalf of Clark it can be urged that, if his memory is as defective and treacherous as his responses indicated when on the witness stand, he is not morally responsible for anything he does.

"The case is an extremely embarrassing one for the defense, and perhaps the most judicious argument might be based on the theory that Clark hypnotized the administration, and then worked its members according to his own wicked will. The counsel for the defense might also find a valuable suggestion in the speech made, some years ago by an eloquent member of a state legislature, who was assigned the duty of delivering an eulogy upon a deceased colleague. The dead member had at one time been a defaulting county treasurer. It was so prominent a feature in his record that it could not be entirely ignored. His eulogist, however, after reciting the many virtues of the departed, neatly surmounted the difficulty by saying: 'Mr. Speaker it is true that at one time there was a supposed irregularity in the accounts of my deceased friend while county treasurer; it is true that he was convicted of embezzlement, and was saved from imprisonment by executive clemency; but sir, during all that trying period his heart still beat responsive to his native land.' So it may be claimed, all the while Peck, O'Connor, Doe and Clark were contriving how to smother the state treasury, their hearts were beating responsive to their native land.

Two handsome female socialist orators have been sentenced to imprisonment in Vienna. Fraulien Glass is a comely young woman of 29, of the Jewish confession, and looked very enthusiastic in a sailor hat, her hair blown about by the wind. Amelia Ribba is younger still—not much more than 17—and by her firmness caused 600 factory girls to strike for six weeks. The girl can talk very much to the purpose for two hours at a stretch. Both these socialist women are pretty.

HE SAT ON THE SHERIFF.

Then the Trial Proceeded With Celerity and Perfect Harmony.

In the good old days when the laws were administered with rather a lax hand in the southwest Jim Jones was a deputy United States marshal at Fort Sill, Indian Territory. He was a bold man and an efficient officer as far as the territory was concerned, but whenever he touched Texas soil his official dignity seemed to relax, says a St. Louis Globe-Democrat correspondent. Red River Station was the nearest town on the Texas side, and it was there that he generally went for his recreation. He was usually accompanied by a crowd of soldiers from the fort, however, and hence for a long time the law left him unmolested. It was only when he grew bold and came into town unattended that he fell into its clutches.

On one occasion he visited the station alone and left his Winchester at the store while he made the rounds of the saloons. Toward evening he returned to the store. It was the gunshop, hardware store, dry goods store, grocery and postoffice all in one, but the signboard over it bore the one word, "Groceries." Mr. Jones noticed this sign and thought he might have a little innocent fun with it.

"Boys," he said to the two or three loungers in front of the store, "I'll bet that I can stand off here and put 10 shots in succession in the middle of that O."

The owner of the store heard the remark and begged Jim not to destroy the signboard, but all in vain. Jones backed out into the middle of the street and began firing. The storekeeper hurried into the house and shut and locked the door.

It was the gunshop, hardware store, dry goods store, grocery and postoffice all in one, but the signboard over it bore the one word, "Groceries." Mr. Jones noticed this sign and thought he might have a little innocent fun with it.

"Boys," he said to the two or three loungers in front of the store, "I'll bet that I can stand off here and put 10 shots in succession in the middle of that O."

The owner of the store heard the remark and begged Jim not to destroy the signboard, but all in vain. Jones backed out into the middle of the street and began firing. The storekeeper hurried into the house and shut and locked the door.

It happened that the store was the office of Squire Griggsby, the local justice of the peace, and that the squire was in his office at the time. Lee Pollard, a deputy sheriff, was also in the store. Fate seemed propitious, and it was hastily decided to get out a warrant for Mr. Jones and have it served at once. Meanwhile Jim Jones, outside, fired six shots at the signboard, had reloaded his six shooter, emptied it again and reloaded it once more. Before the warrant was issued, however, he came to the door and kicked for admission.

"I want in!" he shouted.

"We've shut up for the night," answered a voice from the inside.

"Well, you'll have to open again and shut up later. I'm Jim Jones, and I want my Winchester."

"In a minute, Mr. Jones."

"If you don't open the door, I'll shoot it open."

"Shoot and be blanked." This time it was the old squire that answered.

Mr. Jones proceeded both to shoot and to kick. Meantime the squire had issued the necessary papers and had turned them over to Pollard, the deputy sheriff.

"All right, Mr. Jones. You can come in now."

The door opened, and Jim Jones stepped in, but as soon as he did so Pollard met him, papers in hand, and remarked: "Mr. Jones, I hold here a warrant for your arrest for disturbing the peace. You are my prisoner. Take off your belt and six shooter and hand them over."

For a moment Jones was so taken by surprise that he could only stare at the speaker. Pollard had his weapon in his hand

"NOW, GO ON WITH YOUR TRIAL."

and was a man not to be trifled with. Accordingly Jones bowed with ironic politeness as he replied:

"Certainly, Mr. Pollard, I'm your prisoner and subject to your orders. As to giving up my six shooter, however, that's something I never did and never intend to do. I'll have you to understand I'm a United States marshal, sir, and I've got a right to tote weapons."

The squire simplified matters by deciding that a United States marshal had a right to retain his six shooter while he stood his trial. The case was set for the next day.

"No," said the prisoner; "I've got to be at the fort tomorrow. Try me now, or you won't try me at all."

The squire suggested that he might spend tomorrow in jail, but the prisoner responded he'd be something if he would. There was a good deal of discussion as to the time for the trial, and while it was going on Pollard seemed to have gotten careless and relaxed his guard. Both men had replaced their weapons in their scabbards. Suddenly, without a moment's warning, the prisoner drew back and struck his captor a fearful blow behind the ear. In less time than it takes to tell it he had both weapons in his possession and had seated himself upon the prostrate form of the defenseless deputy.

"Now, then," he shouted exultantly as he fired a few random shots around the room, "go on with your damned old trial!"

The court had no further objections, and the trial proceeded. After the case was called it required only a few minutes to finish it. There was no counsel on either side, and only one witness was called. It may not have been exactly regular for the prisoner to sit on an officer during the hearing, but then Texas courts have never been sticklers for legal etiquette. Perhaps the court held that the prisoner's official position entitled him to some favors. At any rate the case was soon heard, the prisoner found guilty and a fine and costs imposed, amounting all told to \$7.25.

"I ain't got no money," said the prisoner, rising as soon as the judgment was announced. "I can't pay it now, and I can't go to jail, because I've got to be at the fort tomorrow. If Mr. Pollard'll go my security, though, I'll come back and settle inside of 10 days. I will, squire, honest to the Lord, I will."

Thus urged, the deputy arose and fixed his signature as security for the fine and costs. The prisoner thanked him and departed.

Vaccination Matinees.

Vaccination matinees are the fashion just now in Paris, thanks to the prevalence of smallpox on the banks of the Seine. A doctor and a calf constitute the accompaniment of 5 o'clock tea, and the company are inoculated direct from the animal. On the invitations issued for these parties the traditional "On fera du musique" is replaced by the words, "On vaccinera."

A FIRE BUG WORKED AGAIN LAST NIGHT.

ANOTHER SECOND WARD BARN
IS DESTROYED.

Frame Building Owned By Mrs. Elizabeth Zeininger and Used For Storage Purposes Went Up in Smoke Entailing a Loss of \$400—An Incendiary's Work.

The torch of the incendiary gave the fire department its fourteenth run for the year 1894 at 8:10 o'clock last night, an alarm coming from box 23, located at the corner of Caroline street and Fourth avenue. A barn on the premises of Mrs. Elizabeth Zeininger, 17 Milton avenue was enveloped in flames. The fire had got a good start before it was discovered, and when the department reached the scene the barn was one sheet of flame, illuminating the whole of that section of the city. The barn was used as a wood shed and for storage purposes, there being a quantity of furniture in the upper part belonging to Will Stockman, besides a lot of house fixtures, furniture, etc., belonging to Mrs. Zeininger. Mrs. Zeininger had an insurance of \$200 on the building with Silas Hayner's agency. The loss will be about \$400. The fire was undoubtedly of incendiary origin, as no one had been in the building since dark and no one of the family ever had occasion to carry even a light into the barn. The same barn was partly burned April 6, 1886, at 4 o'clock in the morning, and no cause for the fire was ascertained at that time.

Can Any One Tell?

Can any one tell why is the honorable prefix "Mrs." so sedulously repressed among stage people? Nearly every actress of any prominence now before the public is a married woman, yet one might easily enumerate on his fingers all who permit the matrimonial designation to be attached to their names. It may be set down as an almost universal rule that women of the stage do not care to have it known that they possess husbands, and managers are even more eager and urgent in suppressing the baleful fact than the actresses themselves. However young, beautiful and gifted a woman may be, the theater-going public seems to regard her with diminished interest when she has relinquished her virginity in the prosaic way and set up a barrier between herself and romance. I have heard a theory advanced in explanation of this inexplicable but indubitably existent feeling—the old Greek notion that a beautiful woman should not be monopolized and exclusively enjoyed by a husband, but should belong to an admiring world, to be set up like a carved goddess as an object for the worship of the beautiful. Our modern stage goddesses, however, are mostly healthy young women with a plenitude of warm red blood in them, and as a rule, they find the worship of one man in the sanctity of home life far sweeter than the adoration of the thousands across the glare of the foot-lights.

England's Fiscal System.

Great Britain has a wider range of sources of national income than the United States. Instead of two main sources the British government has four. The two largest are like our own—import duties and internal revenue (excise) on spirits. The other two are the income tax and a series of imposts known as stamp taxes. These stamp taxes are collected on all kinds of legal transactions, and the great bulk of them pertain to the settling of estates and are known as death duties, i. e., taxes upon the probating of estates, upon legacies and upon successions. Stamps upon deeds, receipts, insurance policies, patent medicine packages, and various papers and transactions make up the rest. There is a small national land tax and a house duty that yield some revenue, and the operation of the postoffice is somewhat profitable. The elastic element in the English system is the income tax, which is made higher or lower to meet the situation. The condensed exchequer receipts and expenditures for the British fiscal year 1892-93 in pounds sterling (estimate) are as follows:

RECEIPTS.	
Customs.....	£19,715,000
Excise.....	25,360,000
Income tax.....	13,470,000
Stamps.....	13,805,000
Land tax and house duty.....	2,450,000
EXPENDITURES.	

Army.....	£17,542,000
Navy.....	14,302,000
Civil services.....	15,780,000
Interest on debt, etc.....	28,306,000

Including gross income from post-office, and various miscellaneous items of revenue, the total income is £90,395,000.

Including expenses of postal and telegraph service, and other miscellaneous outgoes, the total expenditure is £90,375,000.

A Whimsical Chap.

Once tried to quote Bulwer (was it Bulwer?) and said, "Great aches from little toe corns grow," and altho' he didn't exactly quote he got there, got there as it were, with both feet, at least with a part of both.

"To be or not to be," said Shakespeare, (or Bacon?) and he *be*, may not be far off. Foot it over hill and dale, 'til you are weary and foot-sore, and you cannot find such bargains as we offer in building sites, Homesites, for on these and the prices of the same and terms, too, we always did "use the mark." For some reason we are this spring getting onto the goods, the prices and the terms with both feet. And so, with Hamlet we soliloquize: "The wonder grows", why people are not "up in arms" when the prices we quote are looked into. You can get a home, if you wish, so long as we are in the business; hard times don't count. If you are not earning so much money as you did last year, we will meet you; it don't matter.

Homesites and Homes are our *fad*; to help people get 'em is what we are on earth for, *this time*.

The main secret, we suppose, why we always get the major part of the real estate trade going, is that we own a *large part* of the property that we offer. Another part of the secret is, we deal *every time* so that our customer sends to us his or her friend when they want to deal.

Our beginnings here were not large, but so true it is that "Great oaks from little acorns grow," that the "birds of the air" have their homes,—build their nests,—in the result of our grain of mustard seed. Come over and roost with us. Yours very truly,

GEO. L. & SARAH H. CARRINGTON.

A PRETTY STORY.

In Which a Washington Fireman and a Little Boy Figure.

Some time ago a child playing carelessly in the streets of the northwest section of Washington was run over by the horses attached to a fire engine while the wild steeds were being exercised. He was tenderly lifted from the dirty street by the broad-shouldered, kind-hearted fireman who had unintentionally been the cause of the accident and under his personal supervision removed to the hospital.

The injuries which the child received were of such a serious character that he was compelled to remain in the hospital for several weeks, but finally it was decided best to remove him to his home, where he might receive the attention which can be given only by a loving mother. Several days after his arrival at his home, the several members of the family detected the smell of smoke at frequent intervals. Not certain where it originated, they failed to investigate the matter; but their neighbors also detected the odor, and, after an investigation, discovered that a fire was raging between the two houses. They immediately dispatched a messenger to give an alarm, and after much impatient waiting were rewarded with the sight of the engine coming down the street among much clamor and noise. The foreman directed one party to enter one house and another to enter the other. The family of the invalid, totally unconscious of what was going on, was engaged in eating a meal, and the sick boy was alone, when the firemen rushed in and hurried upstairs.

On the second story they burst into a room so full of smoke that objects were hardly discernable and the atmosphere was in a suffocating condition. The foremost of the firemen, by force of habit scrutinized the room in search of anything that might be injured by the smoke, when he discovered the form of a human being lying on a couch in the corner. Hastily wrapping a quantity of bed clothes around the person he lifted him in his strong arms and quickly bore him to a more pleasant and less dangerous part of the house. After the fire had been extinguished the rescuer found his way down stairs to see how the rescued was getting along, and was ushered into the room. The reader can about surmise what is going to follow, but he can also easily imagine the astonishment of the fireman when he discovered that the person he had saved was the child he had almost killed several weeks ago out in the street.

In Brazil.

Traveling in the interior of Brazil, a gentleman put up for a night at a farm house, furnished in the primitive style of the country; but on the table, in company with a long tallow candle, were placed a handsome pair of plated snuffers and its stand, which the owners had received as a present from Rio Janeiro. "What conveniences you invent in Europe!" said the Brazilian to his guest. "Before I received this present, I used, on taking off the candle-snuff, to throw it about the floor—perchance on the bench where I was sitting, or over my clothes, but now mark the difference." So saying he pinched off the long snuff between his thumb and finger, put it carefully in the snuffers and held them up with a look of triumph at his highly amused spectator.

Fish Hawks and Their Prey.

Careful observers have noticed that a fish hawk, after securing its prey, will often rise very high in the air, drop the fish, quickly swoop down upon and seize it, and then fly homeward. The object of this, as explained by an old skipper in the lower bay of New York, is to get the fish "head on," as a hawk will never fly with the tail of its prey foremost. So, if it has caught it that way, giving it a twirl it drops it and seizes it again with the head pointing in the right direction.

CAN MAKE PRESSED BRICK HERE

O. L. DeForest Finds Suitable Clay Overlying His Limestone Quarry.

That Janesville will produce first class red pressed brick is demonstrated by the samples now on exhibition at Lowell's hardware store. O. L. DeForest has made experiments with clay which abounds in and around this city. The specimens now on exhibition were made from clay overlying Mr. DeForest's limestone quarry, where immense beds of this clay are found. Mr. DeForest says the supply of clay is inexhaustible. He further claims that while it costs more for a pressed brick plant they can be made at a less cost than the common brick, and command the highest price. Those interested are invited to call at Lowell's and inspect this new building material. Capitalists will have an opportunity to invest in the manufacture of pressed red brick in connection with the manufacture of white lime, rubble and the furnishing of building stone.

SCHOLARS THICK AS SARDINES.

High School Seats, Isles and Basement Filled With Pupils.

Seats in the high school commanded a premium this morning, and Professor Mayne was studying the problem of making one hundred and seventy seats accommodate two hundred and twenty-three pupils.

"We had them all present this morning and you ought to have seen the crowd," said the superintendent at noon. "We stood them up in the aisles and against the walls, anywhere place could be found. The number is constantly increasing, and trouble such as cannot be overcome will soon confront us. This morning we put a lot of the pupils down in the basement in the commercial room, and thus obtained room to move around."

Butchers To Give a Dance.

Janesville butchers are to give a party at the armory, March 29. The committee having the arrangements in charge consists of A. F. Krueger, Joseph Leeb and Otto Kronitz. The reception committee consists of A. F. Krueger, C. H. Kueck, Joseph Leeb and Nels Carlson, while the management of the floor will be in the hands of W. A. Murray, F. E. Petric, Henry Vogel, George Yahn, Otto Kronitz and Thomas J. Riley.

Process of Making Artificial Wood.

Artificial wood, suitable for making furniture, roof covering and insulating purposes, can be made according to a patent process by burning magnesite, together with waste vegetable or animal matter, such as wood shavings and chips, sawdust, cellulose, hair or wool. The materials are first pulped with a solution of magnesium chloride in water, or a solution obtained by saturating hydrochloric acid with magnesite, with which mineral pulp is then mixed and molded into any desired form. The articles are subsequently lixiviated, preferably in running water. Suitable coloring matter can be added to the materials at will. — Scientific American.

"Are you very deaf?" asked the judge in a low tone. "Yes, my lord," was the prompt reply. "You had better be sworn," said the judge.

HAS THE FIRE BUG BEEN SEEN?

Man Was About Mrs. Zeininger's Barn Shortly Before it Burned.

Second ward people have long felt that a fire bug infested that neighborhood, and perhaps their suspicions are correct. A man was seen to leave the barn on the premises of the late Dr. C. L. Martin on Milton avenue about 7 o'clock last night. He left in a great hurry on the approach of a neighbor, and went in the direction of Mrs. Zeininger's barn, which was burned shortly afterward. A little careful watching might result in the capture of the bug.

Submarine Earthquakes.

In the very middle of the Atlantic ocean, at about the place where the twenty-fifth meridian from London crosses the equator, there is a spot, far beneath the waves, which is almost continually agitated by submarine earthquake shocks. These are often of such violence as to hurl great columns of water high in air or to make waves that are a standing menace to vessels coming in that vicinity.

MR. McFAIL BOXED UP BY JOHN WINANS.

HOWEVER HIS TESTIMONY WAS
NOT CHANGED.

When Asked Why He Was a Plaintiff He Could Not Answer, Otherwise His Testimony Was Not Shaken—Mr. Sutherland's Talk For Doe Was Trenchant.

Attorney John Winans "rattled" W. J. P. McFail on cross examination in the roster case at Madison, this morning. The Gazette's special says that the morning was taken up with his cross examination of McFail, in which Mr. Winans found that the witness could not tell why he was a plaintiff in the case. He also brought out the fact that the witness had changed some details of testimony since his deposition taken at South Bend, but it was substantially the same story.

Attorney George G. Sutherland's address won him much praise. The Milwaukee Sentinel said he "finished his remarks in forty minutes, and the brevity contributed to the good impression which his excellently precise presentation of his client's cause created."

If Colonel Clark exercises a mesmeric influence over people by which he is able to obtain their money, Mr. Sutherland could not see why the other defendants should be blamed. If Clark could obtain money from a book agent and real estate agent like Tracy, he was the most accomplished mesmerist of the nineteenth century. They cannot point to other connection of General Doe with the matter. There was something more than the money involved with General Doe. He cherished his good name and his fame and for this counsel would contend.

Mr. Sutherland described the position which General Doe now holds under the Federal government, and said that although the facts were all known by the plaintiffs at the beginning of the action as now, General Doe was not made a defendant in the case till weeks afterward. Still the plaintiffs claimed there was no politics in the case. General Doe was eulogized as a young man who was born in Janesville and grew up there holding positions of confidence and the respect of the community until he was called to the wider fields of state and national affairs.

Doe Found The Roster.

General Doe knew so little about the alleged conspiracy that it was only by the most ingenious theories of skillful attorneys that his name was connected with the case. Mr. Sutherland told what the roster was, how Mr. Doe found it in the adjutant general's office, completed the work of preparation for publication, had his attention called to the law of 1887, and then called Governor Peck's attention to it and told him the work was ready for the printer. Counsel continued in the line or showing how carefully and with what precautions the several state officials had proceeded to award the contract to the administration's favorite organ at a price three times greater than it would have cost through the public printer. General Doe knew nothing about McFail's responsibility. But no bond was necessary. If McFail didn't do the work he couldn't get any pay. But the plaintiffs charge Doe with drawing the blank order for the number of volumes. This was his duty to the governor. These were General Doe's only connections with the matter.

Doe's Profound Ignorance.

Plaintiffs alleged knowledge on Doe's part of other transactions, but Doe was ignorant of them. Doe never knew until this action was commenced of Clark's loan from Woodard; he never had part or knowledge of the organization of the Madison Times; he had nothing to do with the effort to make the Times the official state paper. He did have a friendly interest in the Times as he would in any other democratic paper. He did not know up to the beginning of this suit, of the existence of any of the plaintiffs in this action except McFail, with whom he had a few casual conversations. He was charged with conspiring to defraud people whom he had never heard of. Neither did he know of Clark's financial embarrassment or of any purpose to bolster up the Times with this contract. He had endorsed no notes, and no claims would be made that any of plaintiffs' money went to his pocket or to his benefit.

Mr. Winans Spoke Briefly.

Mr. Winans who spoke for Colonel Clark, was also very brief, occupying less than a quarter hour. Mr. Winans said he wished it understood at the start that it was not his purpose to stand and argue his case in advance of the evidence for his client. It was upon the evidence and that alone the jury must find. The plaintiffs had talked long upon mere fairy tales. When the evidence legitimate to the case was summed up the jury would have an opportunity to determine the merits. But the money claim was not alone involved. There was a terrible charge in connection. Every man's character and reputation has been assassinated in this case. The governor of this great commonwealth, our governor and representative at home and abroad; strike him down and how does it effect every man, irrespective of its politics. The jury must not mistake his responsibility when putting their names to the verdict. When the evidence was in it would be seen for his client that the plaintiffs were never misled upon

his representations, they had settled with him, and there was no charge of conspiracy which could rest.

DOG FIGHT STARTS A FREE FOR ALL.

CLINTON RIVEN BY MORE INTERNAL DISSENSION.

T. Lanphere Shot at a Big Dog That Attacked His Little One and Then the Battle Between Liquorites and Prohibitionists Was Launched Upon the Community.

Clinton air has been full of blood for some days back and T. S. Nolan who was one of the attorneys in the case that caused the row is still alive.

The row started over a dog fight, but ended up with a battle between temperance people and the whiskyites.

A short time since T. Lanphere's dog was assaulted, while peaceably traveling along the highway, in company with his owner, by a much larger dog that evidently intended to do great bodily harm.

Then was Sump or fired upon, for in protecting his four footed companion, Mr. Lanphere shot at the assaulting dog with a revolver.

The shot was heard "around the earth" in Clinton, and they arrested him for carrying concealed weapons, and pleading guilty he paid his fine.

Mayor Took a Hand.

Then there appeared upon the scene, Mayor Shattuck, who caused the arrest of Lanphere for a violation of the city ordinance, and it was here that Attorney Nolan came on the case in his capacity of attorney for the municipality. The case was tried in the rink before Justice Morgan and the jury disagreed. In the second trial the defendant was acquitted.

In selecting a jury, those drawn were asked by the prosecution if they belonged to the red ribbon club, and those answering in the affirmative were excused. Mr. Sumner, attorney for the defendant, declared it the first time that he ever knew of a man being disqualified from serving on a jury because he was a sober, or not drunk.

That was the temperance view of the case, but the prosecution thought their grounds for so doing were good.

Trial Filled the House.

The trial filled the rink to overflowing and in his talk Attorney Nolan referred to "Jack" Meheffey who was indicted for shooting at Bitson at the time of his capture. Meheffey, who is now a leader of the temperance red ribbon club stood up in the audience and denied that he was on trial, etc., but Ex-Sheriff George C. Babcock advised him to keep still so he did. The outcome of the affair is said to be still extending into the mists of the dim and distant future and The Banner, the prohibition paper of that town is led to say some things about the mayor and incidentally tell Attorney Nolan that his remarks about Meheffey "did not strike a responsive chord"—among the temperance people—while the mayor is charged with "covering himself with glory and depleting the city treasury of eighty dollars." Verily, Clinton is a great town for battles.

Tomorrow Weisend's Day.

Tomorrow I will conclude my discount and grand opening sale by giving the greatest bargains in all lines of clothing, hats furnishing goods etc. that were ever given in Janesville. Store will be open until 12 p. m.

J. WEISEND, Clothier, Phoebe block, O. P. O.

Notice to The Trade.

Those who had their measures taken for suits and pants during the last four years while I was proprietor of the Boston Clothing House, can still be accommodated at my new store, opposite the post office, as I am still agent for M. Born & Co., of Chicago, tailors for the trade. Suits to order from \$15.00 up. Pants to order from \$3.75 up.

J. WEISEND, Opposite post office.

IN AND OUT OF THE BOWER CITY

THE mud is drying up.

FISHERMEN are getting uneasy.

DUCK shooting will soon begin.

THE thaw has made the river very muddy.

SPRING overcoats and wraps were plenty today.

THE hard times have resulted in no corresponding drop in rents.

CIRCUS men are busy with preparations for their yearly start on the road.

TEN per cent off on stylish, tailor-made spring overcoats, to-morrow, at Weisend's, Phoebe block, opposite the post office.

WE have a few of those spring suits for men, which we received the other day, regular \$18 and \$22 suits, \$10 tomorrow at Rosenfeld's.

CHILDREN'S suits, handsome new desirable patterns, this year's styles just received, regular \$6 and \$7 suits at Rosenfeld's tomorrow for \$3.50.

ROSENFELD, the clothier on the bridge, has an argument on the eighth page of this issue that is one of the most convincing we have ever read. His great money raising sale will last but ten days more. If you want \$10 worth of goods for \$3 or \$4 go there during this sale.

THE Whitewater Register says that Stuart A. Chase of Janesville, the gentlemanly agent of the New York Life Insurance Company, was in that city, paying the amount of insurance due the heirs of the late Dr. Parsons, in amount \$5,000.

A. Golden, druggist, Birmingham, Ala., writes: "Please publish some of the testimonials I have sent you for Japanese Pile cure." Sold at Smith's pharmacy.

WEDDED AT 10 O'CLOCK LAST NIGHT

Justice Sloan Performs a Ceremony After Lodge Had Adjourned.

Justice H. S. Sloan's office was the scene of a wedding at 10 o'clock last night. Justice Sloan attended the Masonic lodge, and when the work was closed he found the young couple from Harvard, Illinois, waiting in his office, both anxious to be united as husband and wife in accordance with the laws of the commonwealth of Wisconsin. Charles E. Jenkins and Fred M. Crouse were pressed into service as "best men" and Charles E. Anderson and Miss May Serviss stood up before the justice with joined hands while their hearts were joined in wedlock.

"That is a genuine love affair," said the justice. "I was convinced of that the moment I told them to stand up. They did not tell me why they came here to be married, and I had no reason to ask the question. All the legal questions were answered in a straightforward manner, and that fills the bill. They were as happy as a pair of doves."

CHANGE AT THE HOTEL MYERS.

A. G. Paddock Sells His Interest To E. D. Miller and Will Retire.

The hotel firm of Miller & Paddock was dissolved last evening, and hereafter the Myers house will be managed by E. D. Miller, who has purchased the interest of his partner, Albert G. Paddock. Mr. Paddock found it necessary, on account of failing health, to retire and seek a different climate, but will remain in the city for some time and may not leave before April.

MARCH CAME IN LIKE A LAMB

Therefore It Certainly Will Go Out Like a Lion.

March came in like a lamb. There is a good deal in the old saying about its going out like a lion, for the reason that there are so many storms during the month of March that if one day is missed the other is bound to be hit. The records show that there is an average of eight storms during the month, and they are almost always violent ones.

Fantasma Filled the House Again.

"Fantasma" drew another big house last night and the big audience were thoroughly pleased with the performance.

Mrs. Leavitt Entertains.

Mrs. Marion P. Leavitt entertained a number of friends in a very pleasant manner at a luncheon this afternoon at her Jackson street home. Covers were laid for twenty guests and a very pleasant affair was the result.

Special Notice.

As next Saturday is the last but one of our great money raising sales, we have decided to make it the banner day of all. We have used the knife again and cut the price unmercifully. If you value your money, you will patronize this sale, for when it is over you will never get those goods at the prices we have named. We have just received a large line of spring goods, such as boys' and children's clothing, all the latest shades and patterns. Listen—You can get children's clothing this year's style, for \$3.50 a suit, worth \$6 and \$7; boys' suits, this year's styles, for from \$3.50 to \$5, a suit worth \$5 and \$8. Can fit any boy up to 19 years old. A man can wear one of those 19 year suits.

What's In a Name?

There is much in the following names; much that is beautiful and artistic. Read the list and see how many are familiar to you. Hampden, Florence, Princess, Orchid, Frajan, St. Cloud, Empire, Antique, Scroll, Diana, Skil, For-get-me-not, Jac Rose, Louvre, Engraved Lily, Bessie, Twist, Versailles, Rocco, Clover, Imperial, Chippendale, Regent, Louis XV, Watteau, Rouen, Hyperion, Kensington, La Reine, Luxembourg, Old English, Medallion, Waverly, Majestic. They are names of some of the solid silver patterns carried in stock by A. F. Hall & Co., "the reliable jewelers."

In buying silver it is a satisfaction to see a variety of patterns. That's why Hall & Co. show so many and the above list represents the principal silversmiths of the world.

THE POLITICAL POT BEGINS TO "BILE."

CANDIDATES ARE COMING TO THE SURFACE.

Democrats Are Quiet But the Ringmasters Are Sawing Wood For The Rank and File Is Pile Up—Street Commissioner and City Treasurer Much Sought.

The political pot begins to simmer and plenty of candidates will be boiled to the surface within a week. The canvass so far has apparently been confined to the republican side but while the democrats are very quiet, the ring masters are sawing wood for the rank and file to pile up.

The republican fight is confined to the offices of treasurer and street commissioner. For treasurer the present incumbent, Michael Murphy, and James A. Fathers appear to have the field, and are urged to the front by their friends, while for street commissioner, George Hanthorn and Milo H. Curtis are talked about most, one or the other will undoubtedly secure the prize. Scores of names are being mentioned in connection with the position of alderman, but sentiment has not yet concentrated sufficiently to warrant the announcement of possibilities.

City Attorney Should be Remembered.

One very important office, that of city attorney, should not be overlooked or neglected. The republicans should select a good lawyer for this position and then elect him. It is evident from the tone of public sentiment now heard that the republicans intend to select good aldermanic candidates for each of the wards. School commissioners are to be elected in the Second and Fourth wards, as well as a commissioner at large to succeed Judge Phelps whose term expires. A number of wage workers in the democrat camp are looking after seats in the public pulse with this idea in the background. Much will be developed within the next ten days.
